BAHRIA UNIVERSITY LAHORE

Study Program
BS(information technology)

10/2021 - 6/   *3.0*

Courses

- Machine Learning
- Data structure And algorithm
- Operating System
- Mobile App development
- Object Oriented Programming
- Web System and Technologies
- Database

WORK EXPERIENCE

CS50's Introduction to Programming with Python
Harvard University

01/2023 - 04/2023   *Lahore*

Completed the CS50 course, focusing on Python programming, algorithms, and problem-solving, gaining proficiency in developing efficient and practical solutions.

self employed
Upwork Tasks

12/2022 - 6/

I did work on many flask web application. for different freelancer I have good grip on python and SQL database.

Junior Python developer
PTECHFUSION

08/2023 - 6/   *Lahore*

PtechFusion

Achievements/Tasks

- I did work on many projects related to (Aiogram) , (Flask) , (django), (Data scraping). I can create telegram bots in aiogram and can integrate web 3 APis . I can also integrate any platform payment system using there developer mood documentation. I can create more reliable and efficient backend in Flask.

Python Developer
InnoTech sol

02/2024 - 09/2024

Achievements/Tasks

- I worked remotely at Innotech Sol on projects including a custom Telegram bot, a Shopify extension, and a website. These projects strengthened my skills in bot development, e-commerce platforms, and web development.

SKILLS

Python   Flutter   HTML/CSS/BootStrap5/js

Django   YOLOV8   Machine Learning

MySQL   Flask   Aiogram   FastApi

PERSONAL PROJECTS

Evoting web App (02/2023 - 6/)

- I am making Evoting web app for the purpose of Election in python framework flask . The frontend is mobile responsive cause I have good grip on bootstrap also.

Roaming Rambler Dispatch web app (05/2023 - 06/2023)

- A portfolio-based web application developed using the Flask Python framework. Implemented features showcasing the company's services and accomplishments, creating an engaging user experience. The project demonstrated proficiency in web development, Python, and server-side frameworks.
- website link (https://theroamingrambler.com/)

Project 8 VIP BOT (10/2023 - 6/)

- I created a Telegram bot in AIOGRAM that manages subscription of a telegram channel and allow user to get discount for subscription using a promo code and also the bot contains stripe payment integration .

Real Time Object Detection (01/2024 - 04/2024)

- I Trained Yolo v8 model on custom Dataset from Roboflow and set the parameter of the model .The project was about the detection of the object in real time and identifying them.

InterVisio (05/2024 - 6/)

- I am developing **InterVisio** , an AI-powered platform for conducting and monitoring remote interviews. It automates skill-based question generation, real-time behavior analysis, and response evaluation, ensuring an efficient and fair interview process.
